

GGF NM WG Notes 09/13/05  
Call began at 11:00 a.m. EDT.

**Attendees:**

Mark Leese  
Eric Boyd  
Jeff Boote  
Jim Ferguson  
Martin Swany  
Rich Carlson  
Warren Matthews  
Susan Evett (scribe)

**AGENDA**

Discuss Sessions at GGF15 (Boston) Meeting

ML reported on the lineup of sessions in Boston. There will be a demo session that includes Advisor, perfSONAR and EGEE (hopefully). EB asked if there would be a working demo by this Friday – MS felt it would be working by next Tuesday. Deployed instance of the measurement data giving link info from PSNC, ESnet, and Abilene – a building block for EGEE. MS felt it would be a fairly stand-alone demo; functionality will be prioritized based on what EGEE needs. JB felt the code would be done by Friday (via an all-nighter) but an implementation of it make take a bit longer.

JF reported on the Advisor – he has just moved into a new building – had a meeting with John Eastabrook on the code readiness; JE thought it would be done but it might take an all-nighter, as well. He is determined to have it ready and is not planning a ‘fall-back’ position.

ML reported that he needed to talk with the EGEE guys to determine their status. EB asked if Warren Matthews can give a hand with that; ML said he hadn’t check on it but would do so after their regularly scheduled call tomorrow.

EB asked if we need a status update in 2 weeks or 1 week – JB, JF and WM can meet with EB in Philadelphia next week. ML reported that the dates and times sent out in recent email are pretty firm – firm enough to make reservations, etc. 2 Detailed sessions and demos on Monday, overview for the group on Tuesday and a Tutorial on Wednesday.

Next call is on 27 September 2005 at 11 a.m. EDT.  
Call ended at 11:52 EDT.
